SPLIT SHIP MANAGEMENT

Crew Management

However, we do also have several clients where we provide only Crew Management services - whereby we take care of all crew matters but the technical management is taken care of directly by the Owner/Operator or another shipmanager.

We can still provide all the benefits of very experienced and well trained crew and we can take care of all the responsibilities for visas, medicals, crew travel and payroll etc - leaving the ship Owner/Operator to concentrate on the technical management and exploitation of the vessel.

For further information about our Crew Management services please contact us as follows:
