# SPLIT SHIP MANAGEMENT

## Simulators and Training Facilities

### Engine room simulator

Transas 4000, Full Mission type with latest upgrades. 4 or 2 stroke Diesel Engine. Fixed or Controllable pitch propeller. Ship electric power plant simulator. Two Diesel Generators. One Shaft Generator. Emergency Diesel Generator. Main and Emergency Switchboard including Synchronising and Shore Supply sections. Possibility to create own engine using main details. True Integration with full mission bridge simulator to give a "total VIRTUAL ship" training environment, allowing latest training in CREW RESOURCE MANAGEMENT.

PLUS... NEW!  
3D VIRTUAL REALITY ENGINE ROOM!

- Engine room area for familiarisation with the machinery set and its appearance.
- System mnemonic diagrams and local control places.
- Familiarisation with engine room sounds.

### Liquid Cargo Handling Simulator

Dedicated "Cargo Room" with instructor station and four student stations.

- Chemical Tanker
- Crude Oil / Products Tanker - double hull
- Very Large Crude Carrier (VLCC) - single hull

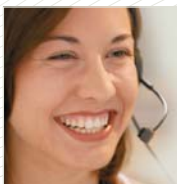

### GMDSS Simulator

Latest model Transas TGS 4000 with instructor and student workplaces, imitating SAILOR GMDSS equipment.
